Address

Dear [Name],

Please allow me to introduce myself. My name is [Name] from Heroes Helping Heroes, a nonprofit organization I have co-founded along with former Lieutenant, Steve Petsche.

We provide help and support to brave people who put their lives on the line every time they go to rescue people and for this they pay a dear cost: firefighters.

While there are some obvious dangers of firefighting, there are many other dangers which many people are unaware of and which have led us to create this organization and reach out to you. Firefighters are always at the risk of injury, but injuries and burns are not the only problem. Firefighters are also at a much greater risk of heart attacks and lung diseases.

Most people are unaware of how much firefighters do for our society. Firefighters are the premier rescue people in any disaster – not just fires. This means accidents, structure collapses, water hazards, tornadoes, anything that requires extracting people to keep them alive is the duty of firefighters. They also work hard at preventing fires by ensuring fire codes are being followed everywhere and checking all hydrants to make sure they are in a working condition when needed. They even give out fire safety training to keep people safe.

Who can forget all the brave firefighters who were the first to respond on ground zero during 9/11 to save as many people as they can?

Heroes Helping Heroes aims to provide the support firefighters need, and for that we need your help and support. We aim to cover extensive medical expenses which firefighters face, and will also arrange counseling services for firefighters who repeatedly work in traumatic conditions. Many firefighters find out that the treatments and counseling they need is too expensive for them, and end up drowning in debt during the most difficult time in their lives. Both, Steve and I think that this is unacceptable and no one should have to die because they simply can't afford to live. We need to provide them support because their problems are directly caused by their efforts to help us.

We will also be helping fire departments in many different ways. If we hear about a fire department that has needs that cannot be matched by its budget, we will step in and provide the required resources. If we learn about a search mission for a missing person we will be there at the search operation site with food and water for people involved in the search. We firmly believe that the work done by our firefighters is noble and heroic and we want to help them in any way we can.

If you feel the same way we do and agree that we need to provide support to the firefighters in need, then we will be honored and humbled by your contribution to our nonprofit organization.

Heroes Helping Heroes is going to help a lot of people and it is all going to happen thanks to generous donors like you. The funds raised will ensure that we help people who don't even take a second before deciding to jump into a dangerous situation to save strangers.

Please let us know how it will be convenient for you to donate and we will provide you the necessary details. We will be calling you in a few days. Feel free to ask any questions you might have. We will also be interested in hearing your feedback about more ways we can provide support to firefighters.

You have not lived today until you have done something for someone who can never repay you.

Best Regards,
